*URBAN**1992**FITNESS THREAD**FITNESS**KIDS**AGGRESSIVE**RENTAL**ROLLER SKATE**SKATEBOARD**SCOOTERS**PROTECTIVE GEAR**ACCESSORIES*

By taking advantage of all the central space under the shell or boot and enlarging the wheelbase of previous 3x110 frames, Roces has literally sculptured the lowest frame that can accommodate three 100mm wheels. This is our Brand-New MINIMUM frame. Thanks to this innovation, the point of gravity and the ground clearance are at a minimum and now any fitness skater can finally experience the thrill of three-wheel skating, just like the most advanced skater. Also, with 6 wheels instead of 8, there is much less weight to carry, and the environmental impact is less.

EN Roces' revolutionary size adjustment system dramatically simplifies and improves the fit for young skaters. The small lever, cleverly concealed on the heel of the skate, easily adjusts shell and liner size precisely. This ensures not only the best fit possible, but also a fun, safe, skating experience.

- 1 Open the lever.
- 2 Tighten (or loosen) until the desired size is reached.
- 3 Close the lever.

IT L'idea Roces che rivoluziona i sistemi di allungamento. La leva posteriore a scomparsa regola millimetricamente la lunghezza dello scafo e della scarpetta con un solo semplice movimento. Questa caratteristica rende il pattino più stabile e sicuro in tutte le posizioni di allungamento.

- 1 Aprire la leva.
- 2 Avvitare (o svitare) fino al raggiungimento della lunghezza desiderata.
- 3 Richiudere la leva.

EN Nothing easier! Growth Compensator E System is one of the most easy and friendly in the market. You just need to:

1. push the button located on the side of the skate;
2. move the shell back or forward according to the size you wish;
3. release the button and skate safely!

IT Niente di più facile! Il sistema di allungamento Growth Compensator E è uno dei più facili e intuitivi del mercato. Dovete solamente:

1. premere il bottone posizionato sul lato del pattino;
2. muovete lo scafo avanti o indietro a seconda della taglia desiderata;
3. rilasciare il bottone... e pattinare in tutta sicurezza!

Product seals and their significance for purchasing behavior

In today's world of oversupply of products, consumer trust plays a crucial role in the buying process. Product seals have established themselves as important orientation aids that can create trust and influence purchasing behavior. But what significance do these seals have?

The following information and statistics shed light on why product seals play a decisive role in the decision to buy a product.

Manufacturers whose products have been recognized on [Vergleich.org](https://www.vergleich.org) within a comparison may advertise with the award on their website and in all online and offline media. It can also be used at the point of sale and in press releases. You are also welcome to include the seal on your social media.

EN The folding lever on the side of the frame very easily adjusts the length of the shell and the liner. The lever can be set in any one of 4 positions which correspond to the 4 size adjustment range.

1. Open the upper buckle
2. Lift the adjustment lever
3. Rotate the lever to the desired size
4. Close the lever

IT La leva situata nella parte posteriore del supporto permette di regolare semplicemente la lunghezza dello scafo e della scarpetta. La leva può essere posizionata in 4 posizioni corrispondenti alle 4 taglie di allungamento.

1. Aprire la leva situata sul gambetto
2. Sollevare la leva di regolazione
3. Ruotare fino ad ottenere la taglia desiderata
4. Richiudere la leva di regolazione bloccandola tra i pioli

1.LIFT

2.ROTATE
